

## INDUSTRY INVOLVEMENT

Here's a quick look at some of the services Savage is providing to power generation customers across North America, and some of the industry groups we work with:

### Annual Material Handling Volumes

**33 Million**  
TONS COAL & PETCOKE

**2.7 Million**  
TONS WASTE COAL

**2.7 Million**  
TONS COMBUSTION BYPRODUCTS

**1.4 Million**  
TONS SCRUBBER SORBENTS

**100,000**  
TONS BIOMASS

### Energy Production Supported

**17,000**  
TOTAL MEGAWATTS

**30-1,700**  
RANGE OF MEGAWATTS

### Annual Fuel Receiving

**22 Million**  
TONS BY RAIL

**11 Million**  
TONS BY TRUCKS

**2 Million**  
TONS BY BARGES

**600,000**  
TONS BY MARINE VESSELS

## ANCILLARY SERVICES

You may not need all the services we offer but wherever you need us, **we're ready**.

We can provide **vacuum trucks** to clean and maintain any part of your facility. We can dredge your **settling ponds**, haul and dispose of **sludge**, maintain your **baghouse** and empty your **bunkers**. We can maintain your **railcar fleet**, and handle **dust control** for your ash and coal stockpiles.

Our commitment is to partner with you to help **reduce your costs** and **increase the efficiency** of your facility. You can count on us to do what we say we'll do with a **safe**, **talented** and **experienced** workforce.

*"They deliver every time.  
We can forget about it...  
because we know Savage  
has it taken care of."*

- Leading Utility Company

## POWER GENERATION SERVICES

*We execute on the details so you can focus on the big picture.*

## OUR TEAM BECOMES YOUR TEAM

Utilities can't afford service interruptions, especially in an environment where capacity factors are increasingly important. Consistent and reliable delivery of fuel and removal of combustion byproducts are examples of the kinds of critical services Savage provides to help utilities meet capacity factor goals. Our work — ranging from plant operations & maintenance to train piloting and disposal of byproducts — ensures our customers' **efficient, reliable and productive operations**.

Decades of experience make Savage well-suited for critical process and operations management at your power plant. Choosing Savage to handle support and ancillary services in and around your plant, will **reduce the handoff costs** between multiple service providers and improve the overall plant efficiency. By hiring, training, and managing a dedicated crew, Savage becomes seamlessly embedded as part of your team.

Our team has a proven track record of dealing with the challenges associated with fuel handling, environmental regulations and system maintenance. Savage brings these services together to allow our power generation customers to **concentrate on energy generation and transmission**, while we focus on the reliable delivery of fuel to keep the plant running smoothly. And we do this with an **industry-leading safety record**.

We strive to build **long-term relationships** with our customers by providing value in every service we deliver. The Savage team becomes an extension of your team. We work hand and glove with you to ensure that your needs are being met so you can **focus on your core business**.

## POWER GENERATION SUPPLY CHAIN SOLUTIONS

Savage supports the power generation supply chain at virtually every handoff. We apply our experience from working with our customers across many different industries, to find new ways to bring value to multiple links in the chain. We are committed to delivering these services in a safe and environmentally responsible manner. Here's a look at how Savage is serving our power generation customers.

**"We don't just have a contract with Savage – we have a relationship."**
