

#### **Transloading**

Transloading is a cost-effective and environmentally friendly method to realize the benefits of rail freight without onsite rail access. Savage is an industry leader, operating more than 40 transload terminals throughout the United States and Canada. Savage specializes in safely handling a diverse range of chemicals, resins, fuels, food-grade products and industrial commodities.

#### **Transportation**

Savage's experienced drivers safely deliver each load with worry-free consistency. Our modern fleet minimizes environmental impact and ensures reliable service. With a broad range of specialized equipment, we provide transportation solutions to meet your needs.

#### **Ancillary Services**

We offer many ancillary services at our terminals, including: railcar heating, sparging, blending/diluting, railcar storage, sampling, ground storage, railcar inspections, filtering and packaging.

#### **Technical Services**

Our team of industry experts and engineers design and operate handling and processing systems that create value for you and solve your unique challenges.

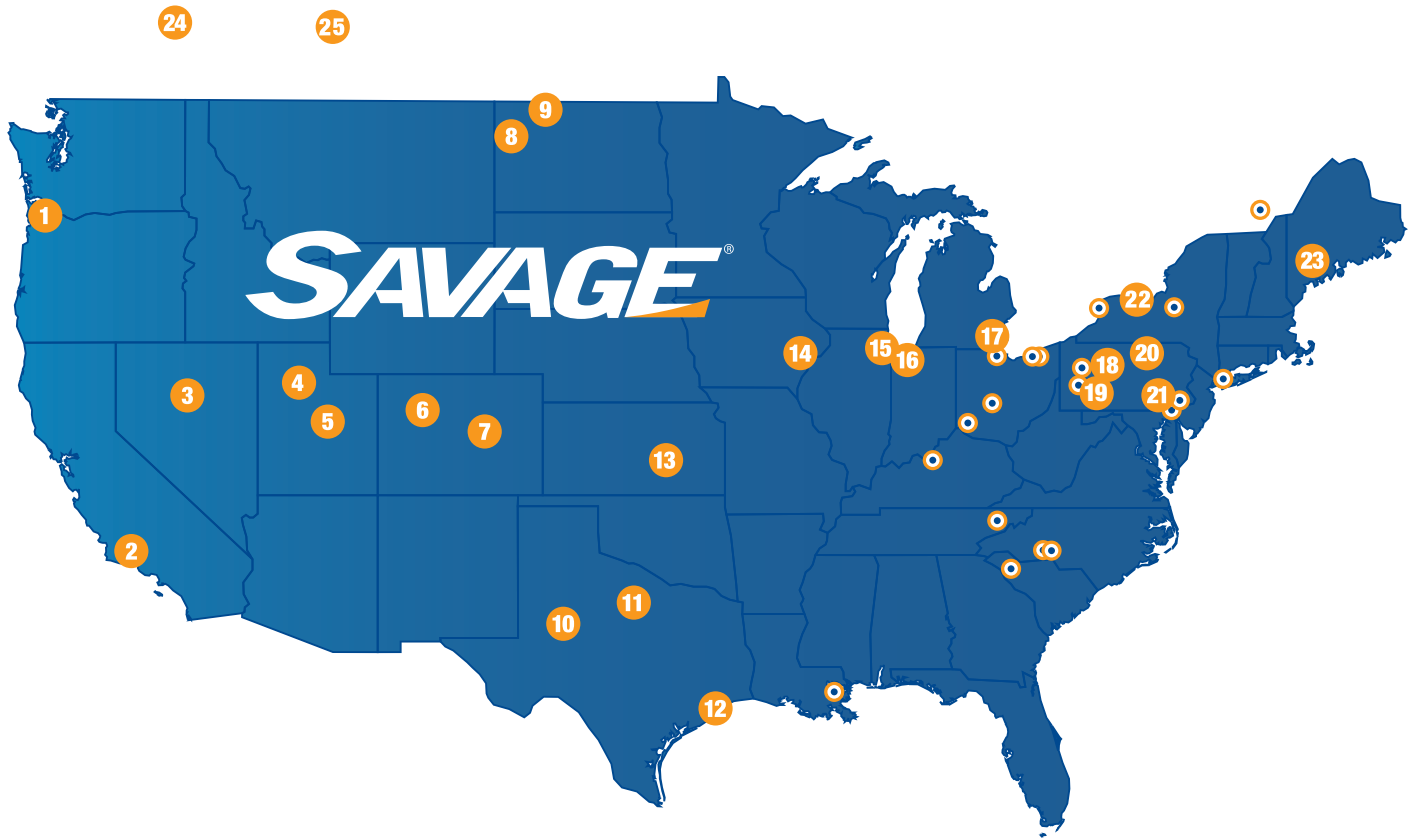

### **Transload Terminals**

**Savage** is a leader in providing worry-free service to chemical and petrochemical companies, railroads, power plants, fertilizer producers, mining operations, oil refiners and other industrial customers. **Savage** has over 240 operating locations across North America and internationally.

With more than 70 years of experience, **Savage** is a trusted partner for moving and managing mission-critical materials. Savage specializes in rail, truck and marine transportation, logistics, materials handling and other industrial services.
